

New!

Beater Blade[®] Metal

New Metro[®] DESIGN
THE ORIGINAL SINCE 2008

Features:

- BeaterBlade replaces your flat beater
- Full aluminum frame, ideal for heavier batters
- Colorfast blades will not discolor your batter
- Patented “wing-blade” technology
- Food safe and lead-free powder coating
- Exceeds sanitation requirements
- Free of rubber, Teflon™, and silicone
- **Designed exclusively for KitchenAid® mixers**

Benefits:

- Makes fluffier batter when creaming butter and sugar at high speeds
- Makes smoother batter when mixing at lower speeds for cheesecake
- Pushes food down...not out of the mixing bowl
- Curved blades scrape all the way down to the dimple
- Use as a spatula to transfer batter
- Cuts mixing time by 50%

Scrapes the bowl while mixing

Plastic BeaterBlade®

The Plastic BeaterBlade is now engineered stronger. More durable means more long lasting performance. Enhanced BeaterBlade has the exclusive *Patented BeaterBlade "wing-blade"* technology that acts like a wiper blade to continuously mix, beat, fold, and scrape ingredients from the sides and bottom of the bowl while it mixes.

Features:

- *BeaterBlade replaces your flat beater*
- *Exceeds sanitation requirements*
- *Free of rubber, Teflon™, and silicone*
- *Top-rack, dishwasher safe*
- *Colorfast blades will not discolor your batter*
- ***Designed exclusively for KitchenAid® mixers***

Benefits:

- *Makes fluffier batter when creaming butter and sugar at high speeds*
- *Makes smoother batter when mixing at lower speeds for cheesecake*
- *Pushes food down...not out of the mixing bowl*
- *Scrapes all the way to the dimple*
- *Use as a spatula to transfer batter*
- *Cuts mixing time by 50%*

Pouring Chute™

Mixing Bowl Attachment

Get ingredients into your mixing bowl, not on the counter!

PC-10

Metal Bowl Chute fits virtually all metal mixing bowls and attaches quickly onto the rim...it will not interfere with mixing process.

** Does NOT fit KitchenAid® Professional 6000 Tulip Bowl **

- Also works with Cuisinart®, Kenwood®, SMEG® and other metal bowls

PC-GL

Glass Bowl Chute fits Tilt-Head 5-QT glass bowl only.

** Does NOT fit KitchenAid® 6 or 7-QT Bowl-Lift Glass Bowl **

Made from high grade surgical steel that will not bend during the most rigorous use. New Metro Design's Pouring Chute™ stand mixer attachment directs ingredients into the center of the mixing bowl. Perfect for adding sugar to meringue or getting oats and flour into cookie batter....it even works with liquids.

- Dishwasher safe
- Protected by US Patents

Fun Slogans!

Laser-Etched Slogans

Let's have fun with slogans! Our etched slogans on the Pouring Chutes create a fun and unique product.

Not for Glass Mixing Bowls.

Comfy Grip™

Stand Mixer Attachment

The Comfy Grip™ attachment works on these KitchenAid® mixers that have **bare metal handles**:

- 5-Quart Bowl-Lift Mixers
- 5-Plus Bowl-Lift Mixers
- 8-Quart Bowl-Lift Mixers

The Comfy Grip attachment, like a bicycle grip, transforms your bare metal handle into a comfortable, non-slip grip to easily raise and lower the mixing bowl. Add a drop of water on the tip of the handle, push Comfy Grip into place and leave it on.

- Great for busy commercial kitchens that require a solid grip
- Helps those with reduced dexterity or arthritis
- Food safe; scuff and odor resistant
- Stays securely on metal handle in home or commercial settings
- Removable for cleaning, but we recommend leaving Comfy Grip attached
